15c-3a: agency management, mockups

This covers the platform's agency detail page at **/platform/agencies/<id>**: rename, people, hold and archive, plus the "On hold" and "Archived" filters on the agency list. Plans (create plan, change plan) come in 15c-3b. Layout follows design system v1: one white sheet, sections before cards. All copy is a draft for your sign-off.

DECIDED

- Split: 3a = rename, people, hold, archive; 3b = plans
- Archive refuses while billing is live: "cancel in Stripe first"
- "Archived" filter on the list; only owners can unarchive
- A hold freezes all billing work (daily job, Connect, activate/resume)

DECIDED (CONT.)

- Staff invites and resends count toward the agency's limits; the email names the agency
- "On hold" chip + filter on the agency list
- Starting or lifting a hold **emails the agency admins**; the email is generic, and the reason stays internal
- Branding privacy/site URLs wait for 13a

ROLES

- **Viewer:** sees everything, no Manage menu
- **Staff:** rename, people, hold/lift hold
- **Owner:** also archive/unarchive (and plans in 3b)
- Every change goes through a confirm dialog

Resend counts toward the agency's limit (3 a day per invite). The 4th is refused: "This invite was already resent 3 times today."

Invite an agency admin

They get an email from Brightline Marketing with a link to join as an agency admin.

Make Sam Patel an account manager?

Sam will only see the clients assigned to them and can't manage the team, billing or settings.

Cancel | Change role

Remove Jo Kim from Brightline Marketing?

Jo loses access to the agency and its clients right away. Their past activity stays.

Cancel | Remove

Make Dana Ortiz an account manager?

Dana will only see the clients assigned to them and can't manage the team, billing or settings.

An agency needs at least one admin.

Last-admin rule: shown after confirming when Dana is the only admin (same for Remove).

Brightline Marketing

Put Brightline Marketing on hold?

While on hold:

- Its team can sign in and see everything, but can't change anything.
- Scheduled work stops: no collection, briefs or alerts.
- Billing pauses on its plan and on its clients' subscriptions. Invoices during the hold aren't charged later.
- Its agency admins get an email saying the account is on hold.

Reason (staff only)

Card declined three times; Dana asked for two weeks to sort payment. Agreed on call Oct 25.

Never shown to the agency. 3–500 characters.

Cancel | Put on hold

Payments by the agency don't lift a hold; only staff can (C6).

On hold since Oct 25 by Alex (staff). Billing pause failed for 1 of 4 subscriptions (Smile Dental). The hold still applies.

Reason: Card declined three tim… for two weeks to sort payment. A… Oct 25.

Billing

Plan	State	Collection
Standard v2	Past due	Paused (hold)

The banner appears only when a billing pause failed; otherwise just the chip. Hover on the chip shows the reason (staff only). "Lift hold" opens a confirm: *"Lift the hold on Brightline Marketing? Changes, scheduled work and billing resume now, and its admins get an email."*

Every agency role sees the same banner. Buttons that change things are disabled, and a write that gets through anyway is refused with the same sentence. Client roles see the existing neutral "account needs attention" line, never the hold.

Hold started
To: agency admins (Dana Ortiz, Sam Patel)
From: Rival Monday <support@rivalmonday.app>
Subject: **Your Brightline Marketing account is on hold**

Hi Dana,

Your Brightline Marketing account is on hold. Your team can still sign in and see everything, but changes and scheduled work are paused, and so is billing.

To restore it, reply to this email or contact support@rivalmonday.app.

Hold lifted
Subject: **Your Brightline Marketing account is active again**

Hi Dana,

The hold on your Brightline Marketing account has been lifted. Your team can make changes again, and scheduled work and billing resume today.

Generic: the staff reason is never included. Sent from the platform's support address. Agencies are Rival Monday's customers, so naming it is fine; their clients never get this email.

A · No live billing

Archive Brightline Marketing?

The agency, its team and its clients disappear for everyone outside the platform. Nothing is deleted: evidence stays, and an owner can unarchive it from the Archived filter. After 30 days it can be purged.

Type **Brightline Marketing** to confirm

Brightline Market

Cancel | Archive agency

B · Billing still live: refused

Archive Brightline Marketing?

This agency still has active billing: its Standard plan and 2 client subscriptions. Cancel them in Stripe first, then archive.

Close

The check runs when the dialog opens, and again when you confirm. The same logic serves the command-line archive (moved into a shared package).
